MEMORANDUM FOR THE RECORD

25X1 SUBJECT: Impressions

25X1 I found this pretty much on the mark. I didn't witness any attitude or posture which would suggest that  is pedantic or stiff, but I would say that he is an individual who has spent little time in polite chatter or small talk. He did appear businesslike, stuck to the point, gave the impression of a true professional government bureaucrat in the good sense of the word, and in a quiet way was rather personable if one likes talking business.
